

THE
Mineralogical Magazine

AND

JOURNAL

OF THE

MINERALOGICAL SOCIETY

(INSTITUTED FEBRUARY 3, 1876)

EDITED BY L. J. SPENCER, M.A.

ASSISTED BY A COMMITTEE OF COUNCIL

VOLUME XVIII

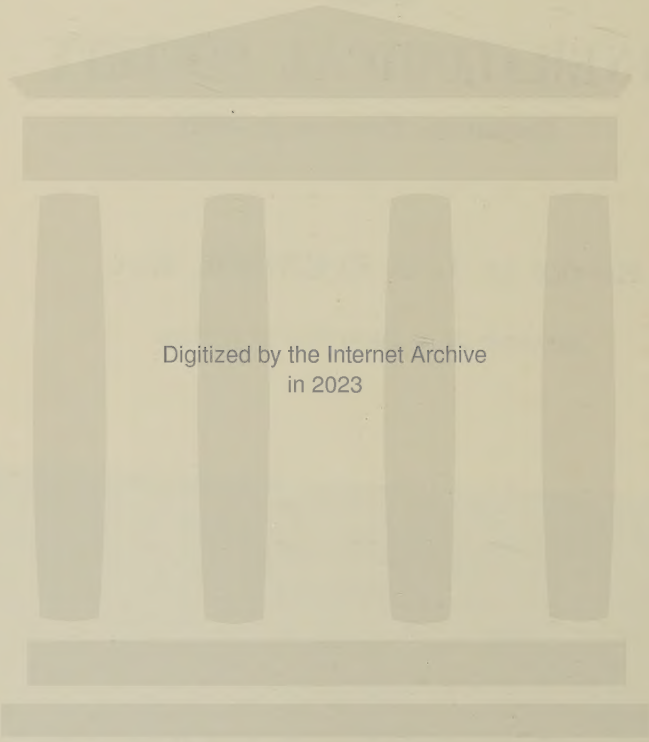

(Nos. 83-87, 1916-1919)

LONDON:

SIMPKIN, MARSHALL, HAMILTON, KENT & CO., LIMITED,

31 & 32 PATERNOSTER ROW, E.C. 4

1919

TABLE OF CONTENTS.

[No. 83. NOVEMBER, 1916.]

	PAGE
Bye-Laws, List of Members, &c.	vii
Proceedings of the Mineralogical Society	xxii
G. T. PRIOR: The meteoric stones of Launton, Warbreccan, Cronstad, Daniel's Kuil, Khairpur, and Soko-Banja. (With plates I-IV).	1
G. T. PRIOR: On the genetic relationship and classification of meteorites	26
J. W. EVANS: The isolation of the directions-image of small objects	45
J. W. EVANS: A method of determining the angular direction represented by a point in the directions-image of an object under the microscope	52
A. HOLMES: On a series of volcanic rocks from the neighbourhood of the Lucalla river, Angola. (With plate V)	58
T. L. WALKER: Spencerite, a new zinc phosphate from British Columbia	76
L. J. SPENCER: A butterfly-twin of Gypsum	82

[No. 84. JUNE, 1917.]

Proceedings of the Mineralogical Society	xxix
J. V. SAMOILOV: Palaeophysiology: the organic origin of, some minerals occurring in sedimentary rocks	87
E. S. FEDOROV: The numerical relation between the zones and faces of a polyhedron	99
A. LEDOUX, T. L. WALKER, and A. C. WHEATLEY: The crystallization of Parahopeite	101
E. S. SIMPSON: On Tapiolite in the Pilbara goldfield, Western Australia	107
H. HILTON: The use of the orthographic projection in crystallography	122
J. W. EVANS: The use of a slit in determining refractive indices with the microscope	130
E. L. BRUCE: Magnesian Tourmaline from Renfrew, Ontario	133
Obituaries	136
Reviews	145

[No. 85. AUGUST, 1918.]

	PAGE
Proceedings of the Mineralogical Society	xxxv
G. T. PRIOR: On the mesosiderite-grahamite group of Meteorites: with analyses of Vaca Muerta, Hainholz, Simondium, and Powder Mill Creek	151
G. T. PRIOR: On the chemical composition of the Meteorites Amana (= Homestead) and Eagle Station	173
A. HOLMES: The basaltic rocks of the Arctic region. With Analyses by H. F. HARWOOD. (With plates VI and VII)	180
J. W. EVANS: The relation between the different laws of twinning that result in the same twin-crystal	224
H. HILTON: On changing the plane of a gnomonic or stereographic projection	244
H. HILTON: On cleavage-angle in a random section of a crystal.	248
R. P. D. GRAHAM: Lattice-like inclusions in Calcite from North Burgess, Ontario. (With plates VIII-X)	252

[No. 86. MAY, 1919.]

Proceedings of the Mineralogical Society	xliii
G. F. HERBERT SMITH and R. H. SOLLY: On Sartorite and the problem of its crystal-form	259
G. F. HERBERT SMITH: On the use of the gnomonic projection in the calculation of crystals	317
J. W. EVANS: The possible axes of crystal-symmetry	324
W. A. RICHARDSON: On the origin of septarian structure. (With plate XI)	327
L. J. SPENCER: Mineralogical characters of Turite (= turgite) and some other iron-ores from Nova Scotia	339

[No. 87. NOVEMBER, 1919.]

Proceedings of the Mineralogical Society	xlvi
G. T. PRIOR: A method for the quick determination of the approximate amount and composition of the nickeliferous iron in Meteorites; and its application to seventeen meteoric stones	349
G. F. HERBERT SMITH: Semseyite from Dumfriesshire. With a Chemical Analysis by G. T. PRIOR	354
R. H. SOLLY: A lead-grey, fibrous mineral from the Binn valley, Switzerland. With a Chemical Analysis by G. T. PRIOR	360
R. H. SOLLY: A new mineral, isomorphous with trechmannite, from the Binn valley, Switzerland	363

	PAGE
G. F. HERBERT SMITH: A Students' Goniometer	366
A. F. HALLIMOND: The crystallography of Vogtite, an anorthic metasilicate of iron, calcium, manganese, and magnesium, from acid steel-furnace slags	368
L. J. SPENCER: Eighth list of new mineral names	373
Obituaries	391
Reviews	401
Index	404
Errata	409

DESCRIPTION OF PLATES.

		PAGE
Plate	I. Meteoric Stones of Launton and Warbreccan (G. T. Prior)	25
"	II. Meteoric Stones of Warbreccan, Queensland (G. T. Prior)	25
"	III. Meteoric Stones of Cronstad and Daniel's Kuil (G. T. Prior)	25
"	IV. Meteoric Stones of Khairpur and Soko-Banja (G. T. Prior)	25
"	V. Volcanic Rocks from Angola (A. Holmes)	75
"	VI. } Basaltic Rocks of the Arctic Region (A. Holmes)	222
"	VII. }	
"	VIII. }	
"	IX. } Lattice-like Inclusions in Calcite (R. P. D. Graham)	258
"	X. }	
"	XI. Septarian Structure (W. A. Richardson)	338
